609 PACIFIC AVENUE, SUITE 204
SANTA CRUZ, CA 95060
TOLL-FREE 1-866-99SQUID

ULTRAM.O.V.

Metal Oxide Varistors (MOVs) are the heart of a surge protector. Flexity PowerSquid® Surge Protectors feature Ultra-MOVSTM™, the latest and most sophisticated technology on the market with enhanced heat dissipation and capacity.

TRIPWIRE

The Tripwire™ Circuit physically severs the electrical circuit in the event of a catastrophic event like a lightning strike to protect your equipment from harm.

PURESTREAM

BEFORE

AFTER

Electromagnetic interference in the current has been shown to hurt performance and be a source of errors and damage to sensitive components. Every Flexity PowerSquid® Surge Protector features Purestream™ power filtering technology to protect your equipment and enhance picture and sound quality.

PERFECT FOR COMPUTER LABS,
OFFICES, DORMS AND MOBILE
LIFESTYLES.

powersquid® the powerstrip EVOLVED.

The Flexity PowerSquid® Surge Protector is manufactured by Power Sentry, a Royal Philips Electronics Company, and is part of the Power Sentry family of PowerSquid® products.
